

REMARKS/ARGUMENTS

Reconsideration of this application and entry of the foregoing amendments are respectfully requested.

The Examiner indicates that there is no claim of priority to a 371 application on the Filing Receipt and that copies of the priority documents have not been received. The Examiner's attention is directed to the fact that the PCT from which this case claims priority is, in fact, listed under "Foreign Applications" on the Filing Receipt. As regards the copy of the GB priority document, attention is directed to item 13 on page 1 of the Office Action dated October 6, 2003, where the Examiner acknowledges receipt of the priority document in parent Application No. 09/011,027. Clarification is requested.

Claims 11-17 stand rejected under 35 USC 112, first paragraph, as allegedly being non-enabled and as allegedly lacking written description. Withdrawal of the rejections is submitted to be in order in view of the above-noted revision of claim 11.

Reconsideration is requested.

Submitted herewith is a Terminal Disclaimer which moots the rejection based on obviousness-type double patenting.

This application is submitted to be in condition for allowance and a Notice to that effect is requested.
